

NEW WAYS TO MOVE

SWIFT

Stylish and convenient

SWIFT home lifts represents the future of stylish living, allowing you to move smoothly and swiftly between different floors in your home. Enjoy everyday luxury and the highest level of safety for peace of mind.

SWIFT is specifically designed to be integrated with your home without any of the complicated building works required with traditional elevators.

It is safe, smart and silent.

SWIFT

Designed in Sweden Made for the World

Founded by home lift pioneers

SWIFT is a Swedish home tech company aiming to make the society and life more comfortable and sustainable. We are a global team of highly dedicated entrepreneurs who share a passion for products and technologies with the power to make a difference.

Swedish quality at its core

SWIFT is designed in Sweden with most components manufactured in Sweden and Germany.

The control system is powered by Thor Engineering™ - one of the most powerful lift control systems in the world. The Thor system has been developed by the Swedish SafeLine Group and has been uniquely tailored to meet the needs of the SWIFT home lift.

Introducing the most forward thinking home lift

100% Battery driven

A revolutionary new drive system that features dynamic charge, whereby batteries are charged as the lift moves downwards. The Lift requires only 900W, single phase 6A (8A fuse). You can even choose to connect the lift to your own independent electricity grid powered by solar panels.

Minimal energy consumption

Introducing EcoDrive – a 48V, 3kW battery driven IPM-SynRM motor inspired by Tesla technology.

Control system

Powered by Thor Engineering™ one of the most powerful lift control systems in the world.

SWIFT remote

SWIFT is remotely accessible by our SWIFT service team ready to provide quick support if need be.

Safety brakes

Dual safety brakes for complete peace of mind.

Screw technology

Equipped with the very latest screw and nut technology (patent pending) from Sweden. It's both reliable and safe, and requires minimal service.

SWIFT Pro

SWIFT Pro is our most advanced home lift with premium design features, a dynamic 10-inch touch display and several options for personalised settings.

Technical specifications

Platform Sizes:	830×1000 mm, 830×1100 mm, 1200×1000 mm, 1400×1100 mm
Number of Floors:	2-6 floors
Total Travel:	250 to 15000 mm
Top Height:	2275 to 3500 mm
Installation:	Recessed installation 50 mm in a pit or directly on floor with a door sill
Doors per Floor:	1
Power:	230V 1-phase 6A (8A fuse)
Speed:	Max 0.3 m/s (adjustable by user from touch display) (0.15 m/s in Europe)
Doors:	Double glass doors
Shaft:	Laminated clear glass (10 mm) or steel (10 mm)
Anti-trap:	Included (battery back up for full operation)
Control:	10-inch dynamic touch display.
Control System:	Thor Engineering™
Drive:	EcoDrive screw & nut with dynamic charge. 48V, 3kW IPM-SynRM motor
SWIFT Safety:	Included
Emergency Phone:	Different options available
SWIFT Remote:	Optional
Colours:	Traffic White RAL 9016, Grey White RAL 9002, Anthracite Grey RAL 7016, Jet Black RAL 9005 (Color type: Jotun Anti-Scratch with Sahara texture finish and gloss 12%)
Design Themes:	Electric Opal with LED, Oriental White with LED, Perching Bird with LED, Stockholm Grid with LED, Bamboo Dreams with LED, INK Bronze/Blue with LED
Carpets:	Ege Carpets ECONYL®: Denim Blue, Stitch Green, Stitch Black, Denim Stripe, Linen Grey
Light:	White LED 6500K on platform side lights and on background LED ArtWall (optional). White 4000K or RGB (optional) in shaft and shaft ceiling. Shaft and ceiling light adjustable by user via display.
Smart Home Device:	Compatible with most home automation systems such as Google Assistant and Amazon Alexa.
Sustainability:	More than 90% of the components in the lift are recyclable.
Technical Compliance:	European Machinery Directive 2006/42/EC

Features

EcoDrive

48V battery bank dynamically charged:

- When traveling down
- By battery charger
- By solar panels (optional)

Easy installation

All inclusive lift + shaft. Possible to install directly on the floor. 230V single phase installation.

SWIFT Remote

Always connected and remotely monitored to minimize maintenance and service costs and to optimize functionality.

Customisable

Carefully selected ArtWalls, colours, light features and flooring options to make it fit any personal preferences.

User profiles

Set lift and door speed based on family member preferences. Kids, visitors and grandparents.

Touch display

Intuitive design. Name your floors. Set user profiles.

Technical compliance

Complies with Europe's strictest safety requirements European Machinery Directive 2006/42/EC.

Patented (pending) drive system

Most modern screw and nut system. Machine room less. State of the art 48V, 3kW battery driven IPM-SynRM motor with next generation motor control technology.

Anti-trap system

Full operation if external power failure. No need to be anxious.

Warranty

10 years of screw and nut drive system. 5 years for the lift (requires a Support and Maintenance package).

A-rated energy consumption

At full operation energy consumption is similar to an A-rated dishwasher (according to VDI 4707). The market's lowest maintenance cost thanks to the EcoDrive which regenerates energy when lift goes down.

Sustainability

More than 90% of the components in the lift are recyclable.

Platform details

Safety edge

Part of SWIFT Safety package. Makes sure the lift stops if anything is in its way.

LED side lights

Adjustable side lights that provides a nice atmosphere to the lift.

Emergency stop button

Part of SWIFT Safety package. If needed, just press this button and the lift stops right away.

Back-lit ArtWall

A back-lit acrylic glass with different design themes.

Carpet

Sustainable ECONYL® carpets made by Danish design company Ege Carpets.

Touch display

Choose different modes, restrict access to certain areas of your home, activate child lock and much more.

Alarm button

Part of SWIFT Safety. Press 10 seconds and you are automatically connected to a pre-configured number. Other options are available.

Sweet sound of silence

Specially designed aluminium guides and soft polyurethane wheels allow us to offer one of the smoothest and most quiet lifts on the market.

Safety edge

Part of SWIFT Safety. Safety sensors around the floor to make sure nothing is being squeezed.

Display

Touch to travel

Choose modes

Travel in “Normal”, “Ninja”, “Kids” or “Ergo” mode. Normal means lights on and high speed. Ninja means slower speed with dimmed lights. Kids mode means slower speed and colorful light effects. Ergo means slow speed, lights on and a more simple display interface.

Normal mode - Male avatar

Normal mode - Female avatar

Ergo mode

EcoDrive

The animated icon shows when batteries are charged by travelling.

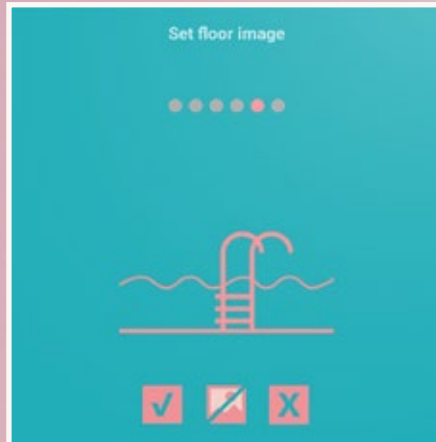

Stay open function

By pushing the icon the doors will remain open for an extended time. Perfect when carrying several bags to the lift. Easily interrupted by pushing the destination button.

Customisable

Set floor names, add descriptions and choose icons from the SWIFT library. Simply adjust the shaft light colour and intensity on the display.

Intelligent

Intuitive instructions when the lift tells you if there is an overload, emergency button release instructions or if the safety edge is pressed. The “Child lock” function makes it possible to lock the lift from unwanted usage.

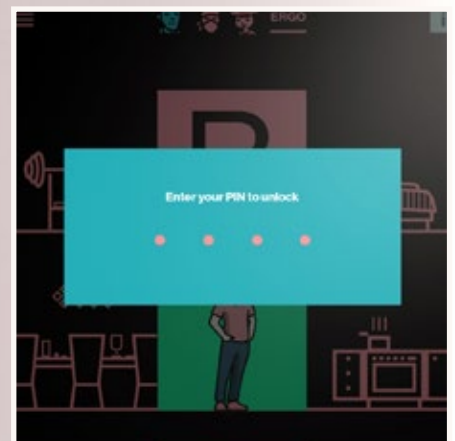

Overload

Emergency button pushed

Safety edge pressed

We push visual boundaries

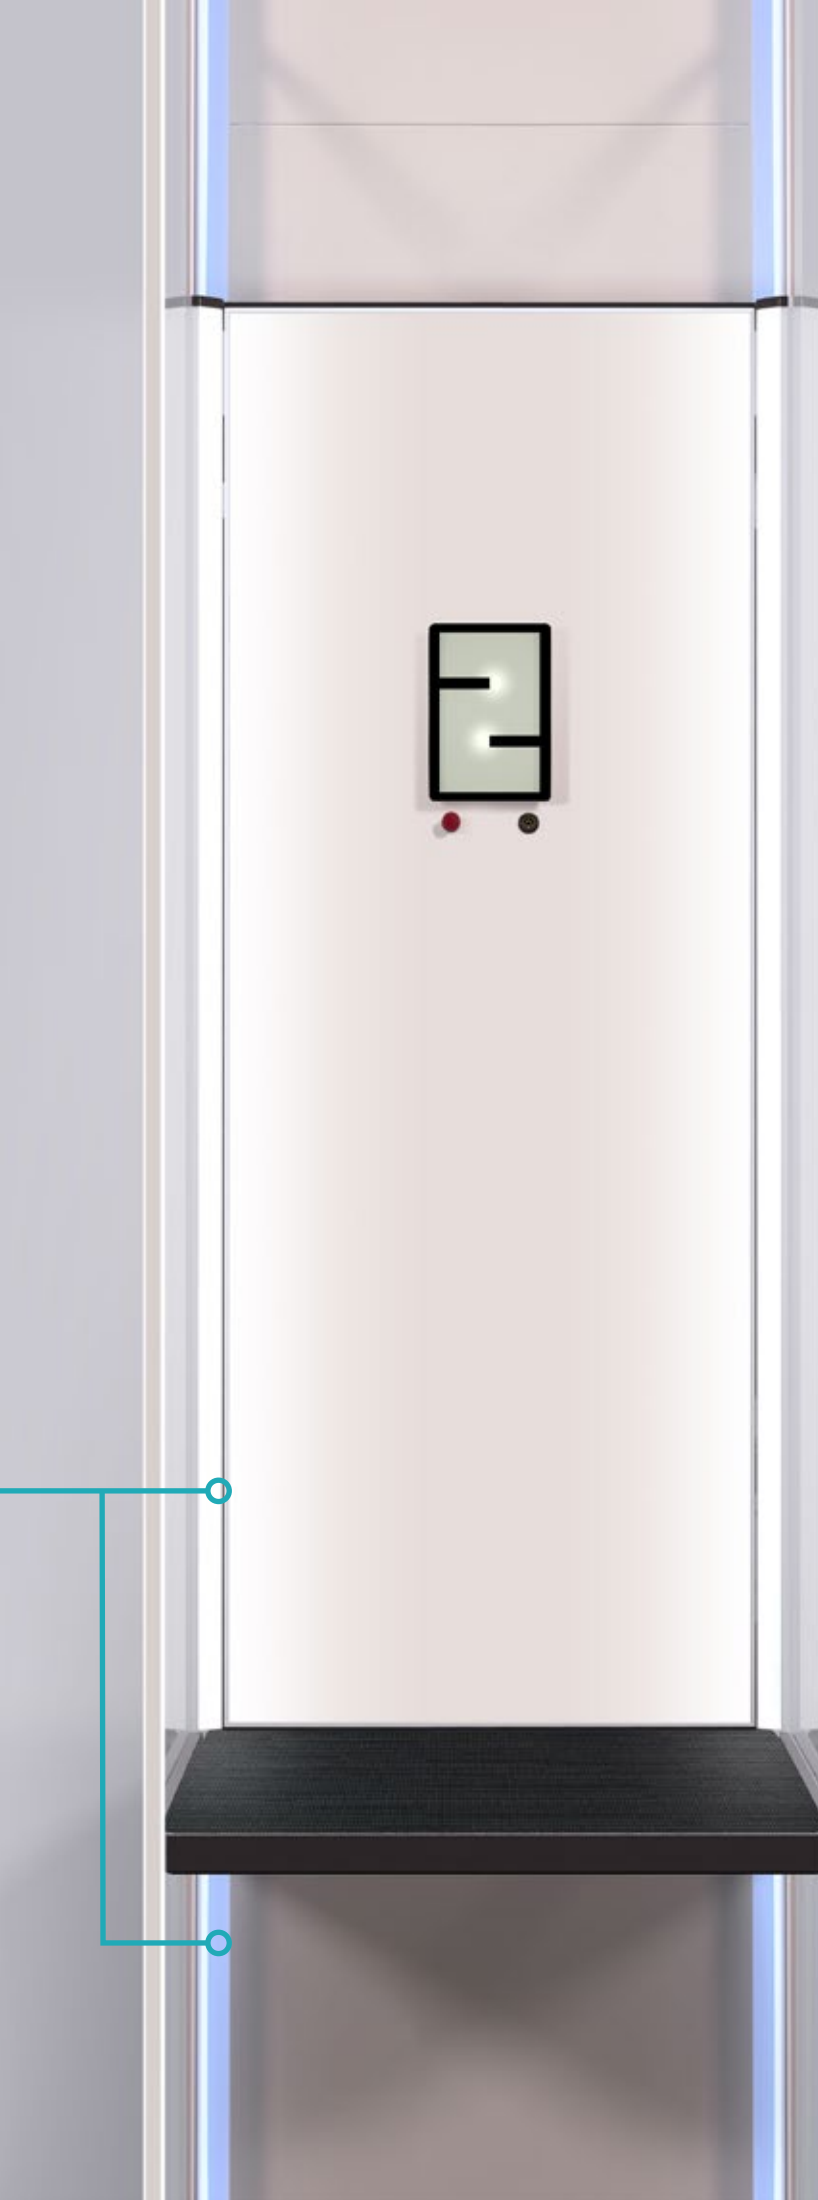

When designing the SWIFT home lift, we set out to combine technology and aesthetics in a brand new way. Light, colours, contours and audio work together to push the boundaries of what contemporary interior design can achieve.

Personalised light

The lift features built-in LED lights with an additional back-lit ArtWall.

The shaft and lift ceiling have white LED lights as standard. As an option RGB LED lights can be chosen for advanced lighting effects.

All lights can easily be adjusted from the touch display.

Electric Opal

The ArtWall Electric Opal adds extra brightness to your home in a soft white tone. Simple and elegant, comes with several different visuals in the touch display inspired by the vibrant electrical force running our SWIFT lift.

ArtWalls and light

Stockholm Grid

Meet Stockholm Grid, a tribute to our hometown, the capital city of Sweden.

Stockholm Grid is a fusion of art and product, blending the lift design and the touch display with the depth, space and colour of the ArtWall image. Framed by the side lights of the lift, the pleat pattern composed of black, blue, and white geometric blocks echo archipelago, sunlight and modernity. Celebrating the closeness of nature and technology of our hometown Stockholm.

Lift size L

Lift size S & M

Lift size XL

Oriental White

Oriental White brings together an oriental pattern with the S-shaped SWIFT logo - it's SWIFT meets Asia. Smooth black lines hovering over the white glazed wall in an oriental hollow window style full of geometric beauty. The touch display is cleverly integrated into the patterns, allowing the ArtWall to seamlessly fit into your home.

Lift size S & M

Lift size XL

Artwalls and light

Perching Bird

Stepping into this space is like taking a walk in a dreamy forest of alder trees. Protruding branches interlaced in a carefully lit arrangement. The backdrop of the ArtWall takes you through a faint purple dream. A fleeting bird appears on the touch display vitalizing the whole ArtWall, adding atmosphere to the scenery and voilà, the Perching Bird is created.

Lift size L

Lift size S & M

Lift size XL

Bamboo Dreams

Say hello to Bamboo Dreams! Our love of nature is deep-rooted and this ArtWall is a tribute to Asia, nature and innovation.

Bamboo Dreams is also a tribute to our own Swedish screw and nut technology. The screw represented by the shape of the Bamboo, and the rotating motion of the drive nut visualized in the touch display by rotating bark rings of a Swedish pine tree. Creating a wonderful chemical reaction between oriental traditional culture and western modern aesthetics draped in a brilliant metallic purple coloured aurora.

Lift size S & M

Lift size XL

Artwalls and light

INK Bronze & INK Blue

The INK Bronze and INK Blue ArtWalls are created by Finnish artist Lotta Ingman specifically for SWIFT. Painted on rice paper and with traditional Chinese ink, she has employed brush strokes that convey either sharp precision or sprawling fluidity. Through these contrasts, she evokes a strong sense of movement and spatiality.

Jet Black | Option
RAL 9005

Carpets

You can choose between five carpeted flooring options for your SWIFT Pro. All our carpets are made by the Danish design company Ege Carpets, one of Europe's leading manufacturer of sustainable high-quality carpets. The carpets are made with ECONYL®, microfibers from nylon waste and recycled plastic bottles from the ocean.

SWIFT Lite

A home lift designed to meet the requirements of a limited budget without compromising on style and comfort.
